Dear Harriot

Your letter the Rhetoric and mothers present of angelica all arrived safe we had finished rhetoric the very day I recieved mine however the letter and Angelica came in a very good time I was glad to hear that your family were all as well as usual but why did you not mention any thing about your lameness? but since you did not I take it for granted that it is no worse. Nothing new is or has been done of any importance of late except they have almost done repairing the old college and have begun the new one. Josiah I yet suppose has his time or will soon set out for the springs I hope he will find their waters efficacious he will perhaps return before commencement if you are well enough to ride by that time I shall expect to see you here. The season has thus far been remarkably dry except for these few days past we have had some fine showers Sally probably thinks it a delightful season because there has been so little rain and thunder. I enjoy myself very well this term it is much more pleasant here in the summer than in the winter and although I go into the water frequently I have not yet been drowned as you anticipated; moreover what is still more marvellous I go into the salt water. "my health is very good and I hope you are enjoying the same blessing"

I hope he will find their waters efficacious he will perhaps return before commencement if you are well enough to ride by that time I shall expect to see you here. the The reason has thus far been remarkably dry except for these days past we have had some five shouers Sally probably thinks it a delightful season because there has been so little rain and thunder. I enjoy myself very well this term is much more pleasant here in the summer than in the winter and although I go into the water frequently I have not yet been drowned as you anticipated; moreover what is still more marvellous I go into the salt water.
